

Emerging Health Professionals

LCTI IS NOW ACCEPTING 2018-19 APPLICATIONS FOR THE EMERGING HEALTH PROFESSIONALS PROGRAM. THE APPLICATION DEADLINE IS MONDAY, DECEMBER 18th.

The Emerging Health Professionals dual-enrollment program combines skills-based, interactive and university-level classroom learning with shadowing in a health care setting. The program is designed for high school seniors interested in the health care field and allows students the opportunity to explore careers in health care first-hand. In addition, the program is designed to prepare students for post-secondary education by offering college science courses.

The Emerging Health Professionals Program is a half-day program that runs the duration of the school year in conjunction with required high school curriculum. Students spend two days a week taking college courses at Penn State or Lehigh Carbon Community College, two days a week in a health care setting and one day a week developing skills. Students in this program take anatomy and physiology for a total of eight college credits. This integrated program provides a strong framework for drawing connections between classroom learning and contextual, real-world application, and also for exposing students to the variety of careers in health. Participation in this program will be equivalent to three high school credits. Students would be required to take Theology, English, and the Government and Economics course at ACCHS.

Students are responsible for paying the cost of the college level courses at Penn State or Lehigh Carbon Community College and must provide their own transportation. They must also meet the following requirements for their application to be considered:

- A. attend a participating Lehigh County school district and will be in 12th grade during the 2018-2019 school year
- B. have an overall grade point average of 3.0 or better
- C. have earned a grade of 90 or above in CP Biology and CP Chemistry or 85 or above in Honors Biology and Honors Chemistry
- D. have completed at least a 1/2 year of Honors Trigonometry with a of 85 or above or CP Functional Analysis with a grade of 90 or above.
- E. have excellent attendance records, as defined by ACCHS
- F. complete ACCHS application on back before Monday, December 18th.

To apply please return this form to Mrs. Rolston in the Studies Office. If approved by the Studies Office and your guidance counselor ACCHS will send a letter of recommendation from your counselor, a copy of your transcript, PSAT, SAT or ACT scores and your attendance records to LCTI for their consideration.
